NON-FINAL ACTION

1. The applicant's Preliminary Amendment filed 30 SEP 03 has been entered. Following the entry of the Preliminary Amendment, **Claim(s) 51-79** is/are pending.

35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that may form the basis for rejections set forth in this Office action:

A person shall be entitled to a patent unless --

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

or

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

3. The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claim Rejections under 35 USC § 102

4. **Claim(s) 51-54, 57-58, 59, 64, 68-69, 71-73, 75-77** is/are rejected under 35 U.S.C. 102(b) as being anticipated by Devaux et al. (1987).

Devaux et al. teach a method as recited in Claim 51. Please note that Devaux et al. teach five monoclonal antibodies (first, second, third, fourth, and fifth nuclease inhibitors) which inhibited the enzymatic degradation of DNA by *Staphylococcus aureus* nuclease to varying degrees. However, when mixed together the five Mabs were able to completely block the enzymatic degradation of DNA by *Staphylococcus aureus* nuclease.

Regarding the limitation(s) recited in Claim 52 note Devaux et al. teach a method comprising all of the limitations recited in Claim 52 except Devaux et al. do not explicitly teach forming a nuclease inhibitor cocktail prior to mixing the cocktail with the composition. However, the examiner asserts that this limitation is inherent to Devaux et al. See, at least, for example, that portion of Devaux et al. beginning on p.118 entitled "Antibody-mediated nuclease inactivation assay."

Regarding the limitation(s) recited in Claim 54, see, at least, for example, that portion of Devaux et al. beginning on p.118 entitled "Antibody-mediated nuclease inactivation assay."

Regarding the limitation(s) recited in Claim 57-59, 64 and 72-73, see, at least, for example, Column 1, p.118 of Devaux et al.

Non-Statutory Obviousness-type Double Patenting Rejection

8. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

9. **Claim(s) 51-79** is/are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over Claims 1-33 of U.S. Patent No. 6,664,379. Although the conflicting claims are not identical, they are not patentably distinct from each other and the granting of a patent to Claims 51-79 would improperly extend the "right to exclude" previously granted in U.S. Patent No. 6,664,379.

10. **Claim(s) 51-79** is/are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over Claims 1-82 of U.S.

Art Unit: 1634

Patent Application No. 10/786,875. Although the conflicting claims are not identical, they are not patentably distinct from each other. This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

CONCLUSION

11. Claim(s) 51-79 is/are rejected and/or objected to for the reason(s) set forth above.
